

# Work Placement Application Form - Zoo

We welcome applications for work placements within the zoo if you are over the age of 16. If you are aged 14 or 15 you may apply only if the placement is part of your school's official work placement scheme. Please note that we have agreements with many local institutions offering animal related courses therefore many of our placements are reserved for these students.

If we have availability on the dates you require we will invite you for an interview. We can only offer a placement after a successful interview

# Health Screening

We work in an environment that exposes us to many known allergens including (but not limited to) nuts, wheat, eggs, crustaceans etc. This also includes environmental allergens such as pollen, hay, dust etc. Please consider this in your application. It is a physically demanding role therefore we require a moderate level of fitness. Some species require us to wear face coverings around them and their food, with no exceptions. Disposable PPE is provided.

Do you have any long term medical conditions?	
Do you have any known allergies?	
Do you have a current tetanus vaccination?	
Do you have any additional needs that we should be aware of prior to the placement?
